**Tennis Program** Here at The Tennis Park we do our best at increasing your child's enjoyment and success at tennis. We use a variety of games with an emphasis on skill development and fun. We believe in Progressive Tennis which is the use of scaled equipment (balls, courts, racquets), in order to speed up your child's improvement and radically increase their enjoyment while learning.

Our program ratio of students to coaches is approximately 4-6 players to 1 coach. No experience is necessary. Participants will be placed in appropriate groups by level.

**Transportation** We hired Star Shuttle for children needing transportation to the club. Space is limited and cannot be guaranteed. Register early if you need this service.

Parents driving may drop off as early as you can after school. We have restroom changing available. **Pick up is no later than 5:00 pm.**
